

GROOMING CARD INSTRUCTIONS

GET THE LOOK THAT'S RIGHT FOR YOU: Simply tear out these instruction cards and keep them in your gym bag or medicine cabinet.

ANCHOR BEARD

SEMI-KEMPT SCRUFF

5 O'CLOCK SHADOW

THE CHEVRON

SEMI-KEMPT SCRUFF

- 1 Grow out your facial hair for a couple of weeks, then trim the entire beard using comb 3 attached to the Gillette Fusion ProGlide Styler.
- 2 Trim the hair on the neck to the point where it meets the underside of the jaw using the Styler without any attachments.
- 3 Apply Gillette Fusion ProGlide Clear Gel shave gel to the trimmed area and shave it clean by adding the Gillette Fusion ProGlide cartridge to the Styler. Flip the cartridge head over and define the line with the ProGlide's precision trimmer.
- 4 Remove the ProGlide cartridge head and trim off any stray hairs on the upper cheek or lip area. Be sure not to define the lines too sharply on the upper cheek to keep the semi-kempt look.

ANCHOR BEARD

- 1 Let your facial hair grow out for a week or so.
- 2 When your beard hair has reached a desired length, use the Gillette Fusion ProGlide Styler to shape your sideburns and upper cheeks into the Anchor Beard.
- 3 Check for symmetry.
- 4 Apply Gillette Fusion ProGlide Clear Gel shave gel to the trimmed area and shave it clean by adding the Gillette Fusion Pro Glide cartridge to the Styler. The Clear Gel lets you see what you're shaving so you can shave accurately.
- 5 Tighten up the edges of the look by flipping the cartridge head over and using the ProGlide's precision trimmer.

THE CHEVRON

- 1 Allow your facial hair to grow out. Every few days trim your cheeks, neck and chin with comb length 2 or 3 to maintain a clean shape and look.
- 2 When your moustache has grown to a reasonable length, trim the cheeks, neck and chin using the styler's trimmer without any of the combs, to maximize the amount of hair trimmed.
- 3 Apply Gillette Fusion ProGlide Clear Gel shave gel to the cheeks, neck and chin, and shave them clean by adding the Gillette Fusion ProGlide cartridge to the styler.
- 4 Define the edges of the moustache by flipping the cartridge head over and using ProGlide's precision trimmer.

5 O'CLOCK SHADOW

- 1 Let your facial hair grow out for about a week or so –depending on how fast your hair grows–and every few days trim with comb length 2 or 3 to maintain a clean shape and look.
- 2 Apply Gillette Fusion ProGlide Clear Gel shave gel to the neck area and shave it clean by adding the Gillette Fusion ProGlide cartridge to the Styler. Flip the cartridge head over and define the line with ProGlide's precision trimmer.
- 3 Remove the ProGlide cartridge head and trim off any stray hairs on the upper cheek or lip area. Be sure not to define the lines too sharply on the upper cheek to keep it looking natural.
